GEBERIT template

Pipe series

Taking the template into use

Download the .zip file to your computer. Unzip the file to a suitable location.

Start MagiCAD, open the project management window, and choose *Pipe series* from the left part of the window.

Click the right button of your mouse and choose *Manager*.

Change the source project file to GEBERIT.EPJ.

Choose needed pipe series (or all) and add it to your project file.

New GEBERIT pipe series are added to the current project file and can be used in the drawing.

Taking the template into use

Start MagiCAD, open the project management window, and choose *Sewer series* from the left part of the window.
