Saint-Gobain ISOVER insulation series template

Taking the template into use

1. Download the .zip file to your computer. Unzip the file to a suitable location.
2. Start MagiCAD, open the project management window, and choose *Merge project...* button

3. In the opened window choose the project (.EPJ file) from where you have saved it. Choose duct *Insulation series* and *Absorption material series* under the Ducts group and pipe *Insulation series* under Pipes group. Choose Compare data....

4. In the opened window you can see all *Insulation series* and *Absorption material series* that will be added to the current project. Choose **OK – Merge** button.
