

Thermotech pipe series template instructions for MagiCAD for AutoCAD

13/11/2025

Thermotech pipe series template

Taking the template into use

1. Download the .zip file to your computer. Unzip the file to a suitable location.
2. Start MagiCAD, open the project management window, and choose *Pipes* → *Pipe series* from the left part of the window.
3. Click the right button of your mouse and choose *Manager*.

4. Change the source project file to THERMOTECH.EPJ.

5. Choose needed pipe series (or all) and add it to your project file.

6. New Thermotech pipe series are added to the current project file and can be used in the drawing.
