

MAGICAD 2019 UR-1 OPERATING ENVIRONMENT AND COMPATIBILITY

MagiCAD for Revit and AutoCAD

progman

MagiCAD

MAGICAD FOR AUTOCAD

MagiCAD 2019 Update Release 1 (UR-1) for AutoCAD is developed by Progman Oy

- MagiCAD for AutoCAD is sold as the following modules:
Ventilation, Piping, Electrical, Sprinkler Designer, Schematics, Circuit Designer, Room
- Both stand-alone and network license options are available
- 64-bit installation

MagiCAD 2019 UR-1 for AutoCAD operates on Windows 10, Windows 8, and Windows 7 operating systems.

MagiCAD for AutoCAD runs on AutoCAD software which is developed by Autodesk, Inc.

MagiCAD 2019 UR-1 for AutoCAD requires a 64-bit AutoCAD version 2015-2019, or the corresponding software (for example, AutoCAD Architecture or AutoCAD MEP).

The system requirements for MagiCAD for AutoCAD are the same system requirements as those stated for the 64-bit AutoCAD version that MagiCAD for AutoCAD is compatible with and will be installed onto. The MagiCAD installation requires at least 1 GB of free disk space.

MagiCAD 2019 UR-1 for AutoCAD is backward compatible down to MagiCAD version 2014.11 for AutoCAD. MagiCAD 2019 UR-1 for AutoCAD successfully opens project files and drawings created with MagiCAD versions 2014.4 or older. However, once the project files and drawings are saved with MagiCAD version 2019 UR-1 for AutoCAD, the project files and drawings will no longer be compatible with MagiCAD versions 2014.4 or older.

With Network License option, MagiCAD 2019 UR-1 modules for AutoCAD are compatible with the Citrix XenApp 7.6 virtual platform.

RIUSKA

Riuska is developed by Granlund Oy

- Riuska is sold together with MagiCAD Room as MagiCAD Comfort & Energy by Progman Oy or its authorised reseller
- Both stand-alone and network license options are available
- Only a 32-bit installation file is available

Riuska operates on Windows 10, Windows 8, and Windows 7 operating systems.

Riuska creates report outputs in the Microsoft Excel format. Microsoft Excel should be purchased separately and is required to read the report outputs.

MAGICAD FOR REVIT

Note: MagiCAD 2019 Update Release 1 (UR-1) resolves the compatibility issue with the Autodesk Revit update package 2019.1. The recent Revit 2019.1 update package included several internal changes to the Autodesk Revit platform which affected the functionality of MagiCAD software components. To resolve this issue, download and install MagiCAD 2019 UR-1 from the MagiCAD Download Portal. MagiCAD 2019 UR-1 is compatible with Revit versions 2017-2019 and does not require the Revit update package 2019.1.

Note: If the computer has an existing installation of the Schneider Electric Ecodial plugin for AutoCAD, and MagiCAD Electrical for Revit is then installed on the computer, the Schneider Electric electrical calculation component included in the MagiCAD Electrical for Revit installation package will override the calculation engine of the Ecodial plugin for AutoCAD. As a result, the Ecodial Plugin for AutoCAD may not function anymore.

MagiCAD 2019 UR-1 for Revit is developed by Progman Oy.

- MagiCAD for Revit is sold as the following modules:
Ventilation, Piping, Electrical, Sprinkler Designer, Schematics, and Supports & Hangers
- Both stand-alone and network license options are available
- 64-bit installation

MagiCAD 2019 UR-1 for Revit operates on Windows 10, Windows 8, and Windows 7 operating systems.

MagiCAD for Revit runs on Revit software which is developed by Autodesk, Inc.

MagiCAD 2019 UR-1 for Revit 2019 requires a 64-bit version of Revit 2019.

MagiCAD 2019 UR-1 for Revit 2018 requires a 64-bit version of Revit 2018.

MagiCAD 2019 UR-1 for Revit 2017 requires a 64-bit version of Revit 2017.

MagiCAD for Revit requires an Internet connection. Accessing the product database with MagiCAD for Revit requires an Internet connection because the product database is available online. While we aim to keep the product database available at all times, there may be occasional limitations to its availability such as maintenance-related service breaks.

The system requirements for MagiCAD for Revit are the same system requirements as those stated for the 64-bit Revit version that MagiCAD for Revit is compatible with and will be installed onto. The MagiCAD installation requires at least 1 GB of free disk space.

With Network License option, MagiCAD 2019 UR-1 modules for Revit are compatible with the Citrix XenApp 7.6 virtual platform.

LICENSING

MagiCAD for AutoCAD and Revit has the following license alternatives:

- Stand-alone licenses (SLM), which are activated on the workstation
- Network licenses (NLM), which are activated on a network server
 - Single server model, in which all licenses are activated on one server
 - Distributed license model

Accessing the licensing server requires an Internet connection. There may be occasional limitations to its availability such as maintenance-related service breaks.

Compatibility:

Standalone licenses of MagiCAD 2019 UR-1 are compatible down to MagiCAD version 2009.11.

Network licenses of MagiCAD 2019 UR-1 are compatible as follows:

- MagiCAD versions 2006.11 to version 2019
- MagiCAD network licenses are compatible with the Citrix XenApp 7.6 virtual platform
- Please note that if you are using MagiCAD versions older than 2009.11, it is not possible to borrow licences.

SYSTEM REQUIREMENTS IN NETWORK USE

- The MagiCAD network license software (32-bit server) requires a 32-bit Windows Server 2003-2012 operating system on the server.
- The MagiCAD network license software (64-bit server) requires 64-bit Windows Server 2003 (including SP1 and SP2), 2008, 2012 or 2012 R2 operating system on the server.
- The TCP/IP protocol is required in network licensing.
- If the operating system on the file distribution server in the Windows network is Novell, Linux or equivalent, the developer of the application cannot be held responsible for the functionality of the application.
